Product features

- Heat retaining panel shell made of stainless steel, and heat retaining area made of high borosilicate black glass, which is beautiful and durable.
- A variety of heat retaining panels are available.
- To provide general installation size, marble table top recommended
- Controllable heating power to ensure food safety.
- Simple operation, easy cleanliness.
- For food insulation only, not for food heating or production.

Product Introduction

WIRE TYPE CONDENSER

Wire tube condenser widely used in high cooling performance required large refrigeration product.

Features.

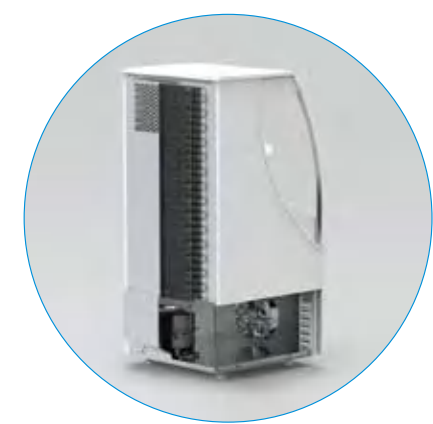

- External installation, good air ventilation property, to ensuring better cooling efficiency in limited space.
- Refrigerant flowing smoothly, helps to reduce the load of compressor, save energy extend operating life.
- It has pretty good dust proof function, and no need to clean up.
- Large volume condensers without any welding points, it can reduce the possibility of tubeline leakage.

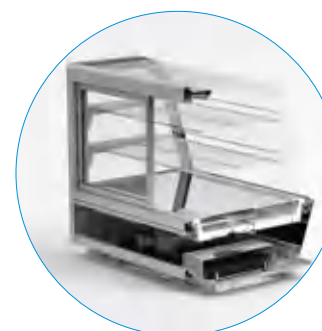

The Length of Tube: 47990mm

Technological Process:

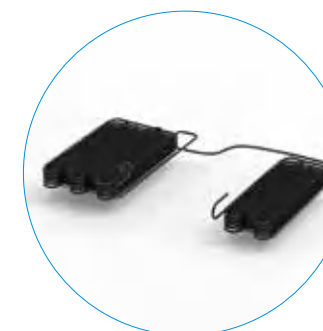

The Length of Tube: 35900mm

ALS-220N
The Length of Tube: 16700mm

ALC-160N
The Length of Tube: 20900mm

Product Introduction

LED LIGHT AND POWER

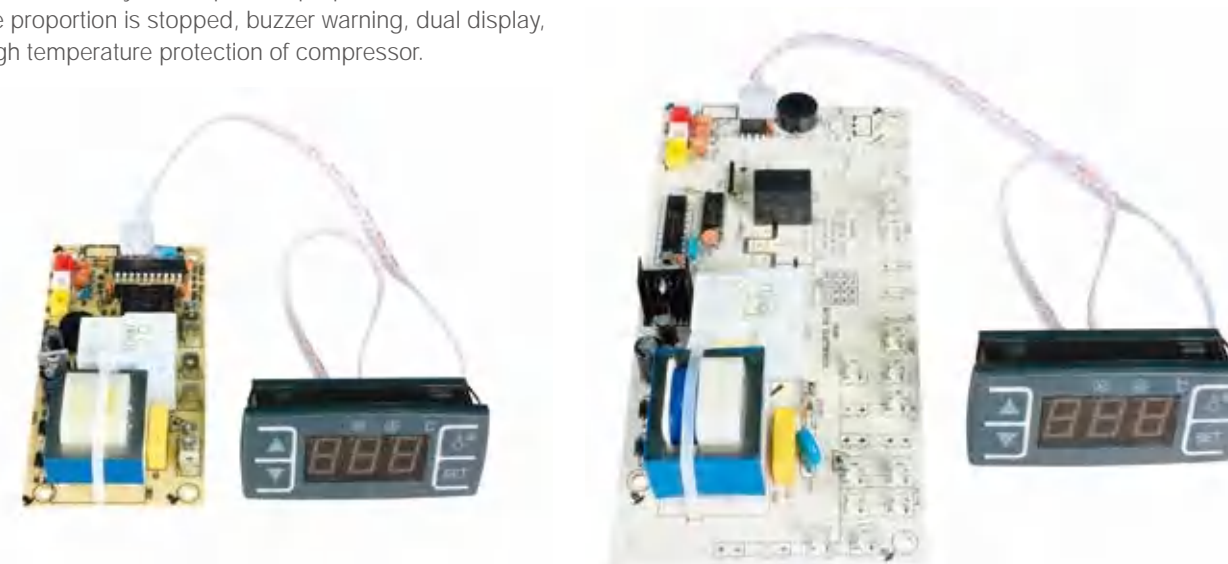

1. 2835 long working-life, high brightness LED beads
2. color temp. range: 2700-9000K
3. ETL Cert.
4. Voltage: 85V-265V
5. Constant current output
6. Isolation protection against electric shock.

Product Introduction

TEMPERATURE CONTROLLER

1. Working Voltage: AC115V/220-240V 50/60Hz
2. Overall power consumption: < 3W
3. Temp. measurement range: -40°C -45°C
4. Ambient temp.: 0°C -60°C
5. Relative humidity: 20%-85% (frost-free)
6. Compressor output: 30A/240VAC Direct drive 1.5HP ac load.
7. Function: Menu setting, Parameters lock,
Temperature conversion between centigrade and Fahrenheit;
3 minutes delay of compressor proportion, After sensor's failure,
the proportion is stopped, buzzer warning, dual display,
High temperature protection of compressor.
